

OFFICE OF THE UNDER SECRETARY OF DEFENSE

3000 DEFENSE PENTAGON
WASHINGTON DC 20301-3000

ACQUISITION AND
TECHNOLOGY

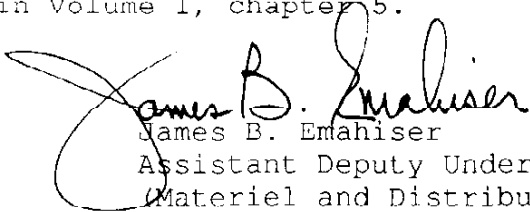

FOREWORD

This manual is published by the direction of the Deputy Under Secretary of Defense (Logistics) under the authority of Department of Defense Directive 4140.1, Materiel Management Policy. It consists of five volumes: Volume 1, Concepts and Procedures; Volume 2, Supply; Volume 3, Transportation; Volume 4, Acquisition (Contract Administration); and volume 7, Finance. Volumes 5 and 6 are reserved pending definition of requirements. The manual provides policy and uniform procedures, and prescribes electronic data interchange standards for conducting DoD logistics business processes implemented under the Defense Logistics Management System. It is the linchpin of logistics systems standardization and modernization both for process and data interchange within the Department and with industry.

The provisions of the manual are effective when published for implementation planning and for system development and upon implementation in the wholesale logistics CIM migratory systems and Services/Agencies retail logistics systems. The provisions apply to the Department of Defense and, by agreement, to external organizations conducting logistics business processes with the Department of Defense. Chapter 1 of each volume identifies specific organizations and circumstances to which the provisions apply. The current Defense Logistics Standard Systems manuals are to be retained and used with the Defense Logistics Standard System (the former MILS systems) pending their complete transition into the DLMS at which time they will be canceled. These manuals and their titles are listed in the Attachment.

Department of Defense activities and activities of external organizations participating in the DLMS who require additional copies of this manual should submit requests through their office responsible for issuing publications. Non-participating activities may obtain copies of this manual from: ATTN: DASC-WDM (Publications), Defense Logistics Agency Administrative Support Center, 8725 John J. Kingman Road, Fort Belvoir, VA 22060-6221.

Recommendations for revisions to this manual are encouraged. Submit all proposed revisions or corrections following the procedures prescribed in Volume 1, chapter 5.

James B. Emahiser

Assistant Deputy Under Secretary
(Materiel and Distribution
Management)
